

FIRE LINE AUTOMATIC 3+ (990mm)

WITH FRAME & GLASS PANELS *(for Room Divider, Tunnel and Island housings)*

Net Zero automatic burner with the BEV Technology®

NEW FRAME WITH GLASS PANELS

The new frame with integrated glass panels serves as a protective and aesthetic mantle for a fireplace burner, creating an embodiment of safety and elegance. Designed to cater for multiple arrangement styles, it enables tunnel, room divider, and island configurations, fostering a diversity of interior design possibilities.

AUTOMATIC REFILLING SYSTEM

The automatic pump communicates with the device, delivering the necessary amount of fuel. There is no risk of overfilling the tank or spilling the fuel.

OPTIONAL DECORATIVE TRAY

Decorative tray with ceramic logs or white stones installed on the burner, behind the fireline.

AUTOMATIC BEV® BURNER

The automatic burner with the patented BEV Technology® is the most advanced product in the industry ensuring the cleanest burning process without any smoke, smell or ash.

The flame is produced by combusting ethanol vapours and has no direct contact with the liquid fuel.

REMOTE CONTROL

Control the fire with the included remote, app on your smartphone or home automation system.

BEST BUILD QUALITY

The product passed extensive tests carried out by the leading certification institutes. It is manufactured according to UL standards and is O-TL certified, meeting the most demanding safety and quality requirements.
