

Ellipse

Ellipse Ceiling/Floor

As an entirely new category, **decoflame®** introduced in autumn 2010 the Ellipse Ceiling - the fireplace which mounted to the ceiling and thanks to rotation allows a 360 degrees view of the flames. It comes with optional hardened, tempered glass sheets to either one or both sides.

The Ellipse Ceiling is available in four standard finishes: black, white, brushed and highly polished stainless steel. These four finishes can be mixed for the inside and outside of the fireplace on customer request.

Specifications

Materials:
Steel, stainless steel, tempered glass.

Finish:
Powder-coated steel and brushed stainless steel.

Heat efficiency:
Approx. 3 kW

Burner volume:
4 litres of bioethanol. Use only bioethanol for **decoflame®** fireplaces.

Burning duration:
One filling of bioethanol will burn 4 - 8 hours depending on flame intensity and air flow.

Dimensions:

Weight: 70 kg
